March 31st, 2014

To the Members of Big Apple Playback Theatre Company,

The NADTA Tri-State Chapter wants to thank you for generously offering your time and talent to perform for the community at our recent event, “Playback Theatre: In the Key of Love”. The Tri-State Chapter seeks to provide opportunities for members of the Drama Therapy and Creative Arts Therapy community to come together to pursue connection, education and self-care. Your performance helped to meet these goals, as well as to create a space where attendees felt comfortable sharing their personal love stories.

Through your welcoming presence and creativity, Playback Theatre became approachable for those familiar with the method and for those completely new to it. Your actors are attuned to both the energy of the group and the needs of the storytellers. We as the Tri-State Chapter board felt the event was a tremendous success, as it was clear that every audience member left feeling energized and inspired. It was a true example of community collaboration, and we are so grateful that BAPT helped us to kick off our current season.

Your contribution is so appreciated, and we look forward to working together in the future.

Sincerely,

Liz Edwards

President, NADTA Tri-State Chapter
